

**Fighting for your digital rights
since 2020.**

Education

Our popular webinar series includes booktalks, panel discussions, and practical how-tos for librarians of all kinds.

Research Network

Library Futures provides an outlet and an audience for researchers to pursue the boldest questions and ideas relevant to our key issues.

Advocacy

From offering clear policy solutions and standards to demanding accountability from library vendors, we work to create an equitable technology-forward future.

Internships

Our internship program welcomes the next generation of information professionals and leaders in advocacy, law, policy, and research.

Legal Resources

We work to develop modern, rational, commercially viable standards for digital content rights and contract negotiations to serve the interests of libraries, creators, and the public.
